

Hello. I have been informed that my radio station K-LOVE, heard on FM translators could be forced off the air if LPFM is given priority over FM translator service. This is not something I ever want to happen. I listen to K-LOVE at least 3 times a day, in my car and at home, and sometimes on the internet. I feel connected to my community through their local news and I am informed on news around the world that is not covered by the newspapers and other media. It is encouraging news that gives me hope for the future. Not only do I listen to it, but it is the only station that my 3 boys enjoy listening to, and they range from 9-12 years old. We rarely agree on anything, but we love listening to K-LOVE. I have a K-LOVE sticker on my car, the only one there, and I love seeing other cars with the same sticker, it helps me feel connected, knowing I and a stranger have something important in our lives in common. I can not imagine not being able to listen to this station 24 hours a day. I do think it will have a negative effect on my local community if K-LOVE were to be displaced by an LPFM broadcaster providing other programming. I believe that the encouraging music, the 100% clean language, the DJ's who are so real and caring, are an asset to my community and it is in the public interest to keep them on the air so we can have a choice over constantly monitoring what our kids listen to , and listening to K-LOVE where no monitoring is required. PLEASE keep things as they are. Thank you, Nazanin Tooyserkani
